Happy I Love Horses Day!

How much are horses loved? So much that they have their very own day!

Today is National I Love Horses Day — a day to celebrate the magnificent maned animals we adore here at Best Friends Animal Sanctuary's Horse Haven and all across the country.

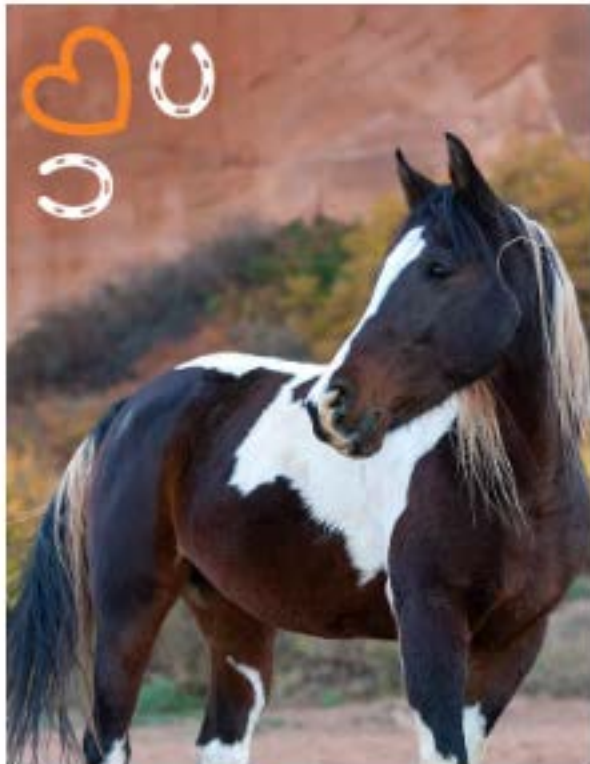

Do you want to celebrate them, too? [Sponsor a Sanctuary horse and send some extra love and care their way.](#) You can even sponsor a horse in your loved one's name and announce your gift with an adorable e-card or downloadable printable card.

Tony

Tony's a gorgeous guy who loves attention, but he can sometimes be a bit shy. You can't blame him though; he came from an abusive situation in Arizona and doesn't quite know how to trust everyone just yet. But he's learning one day at a time! Show Tony that you're on his side with the gift of sponsorship.

[**Sponsor Tony »**](#)

Jewel

Jewel is a beautiful Arabian and American saddlebred mix. But that beautiful mix also means she's incredibly challenging and needs specialized care to thrive. And with your help, that's exactly what she's getting here at the Sanctuary. Help this girl continue to get the extra TLC she needs to be her best self.

[**Sponsor Jewel »**](#)

Snickers

Snickers didn't always have the best life, giving pony rides for nearly three decades without getting much love in return. But at 32 years old, he's learning that life can be wonderful. Snickers is blind in one eye and has just a few teeth, but he doesn't let it slow him down. He spends his days strolling the canyon and hanging out with his pals. Give Snickers extra love to make his golden years bright.

[Sponsor Snickers »](#)

Of course, these are just a few of the animals at the Sanctuary whom you can sponsor. [Check out some of the others who could use your kindness.](#)

Because of you, the horses at the Sanctuary get room to roam, top-notch care, and steady companionship. For that, we couldn't be more grateful. **Thank you for all that you do for the horses here and for galloping friends everywhere.**
