give a gift that grows

Give a gift that grows. Plant a tree for Mother's Day!

Don't you love how green Vermont is? We are lucky to live in a state rich with forests. But even in Vermont, hundreds of miles of critical areas along our rivers and streams lack the vegetation they need to protect our waterways.

Planting trees is one of the most cost-effective ways to improve Vermont's water quality for the long-term – by having trees growing in the right places.

Vermont's future is in your hands. Will you help us plant more trees in the places that need them most?

When you donate \$35 or more between now and Mother's Day, we'll plant a tree for you to honor a loved one!

Thank you for giving a gift that grows!

Intervale Center

Sustaining farms, land, and people since 1988

Planting trees is one of the most cost-effective ways to improve Vermont's water quality for the long-term – by having trees growing in the right places.

Mother's Day is only a few days away!

Make a gift of \$35 or more before Mother's Day and we'll plant a tree for you in the name of a loved one of your choice! Your tree will live for decades along the Winooski River, providing habitat for animals, reducing erosion, filtering pollutants before they reach the river, and sequestering carbon.

Vermont's future is in your hands.

Will you help us plant more trees in the places that need them most?
