

Thank You!

July 2018

Dear Pamela,

It's quite emotional when you get a note from a parent, telling you that because of the special help at school that their child is getting, the child is a new child -- happy, more confident.

Maybe you haven't received a note like that. But you should! Because the special help at our wonderful Jewish day schools would not happen without you!

You are making a powerful difference for these children. You are giving them confidence in themselves. And you are easing the strain on the lives of the parents, who feel helpless and drained. You are transforming their lives. This is not an exaggeration! THANK YOU!

And for the families that can't afford even the minimum tuition they're obligated to pay, you are their savior. Schools **could not** help those parents without your help. The money needs to come from somewhere. Teachers need to get paid as do mortgages, repairs and all that good stuff. You know what I mean.

Yes, it's you, together with our large family of loving Yidden, who care about all the children, and our fellow Jews, regardless of what school they attend. You are making it happen. And it's you who makes G-d proud of His children. It's also you who makes me proud to be part of such a great community.

With your continued partnership we all win, keeping our community strong!

I know you get a lot of requests for help. There is **so much** need out there and not enough funds to help everyone. That's why I really appreciate what you've done...helping one more child is huge for that child and that family.
G-d Bless You!

Thank You for trusting and allowing Kehillah Fund to put your Jewish values to work.
