Dear Mr. Young,

Can you feel it? The magic of nature? It's real. And it is yours to protect.

The intricate and delicate balance of nature is more than just the science we know. It's the awe and wonder of nature you feel. Look with your heart and you'll see the magic in everything from fall bird migration to bumble bees pollinating flowers, and in nature's secrets we've yet to uncover.

And you hold the magic of nature in your hands.

With every nature reserve you help create, with every environmental policy you raise your voice for, and with every turtle, fox and caribou you help protect as an Ontario Nature member – you are keeping the magic of nature alive.

Please consider making your special holiday gift this year to protect nature in Ontario and all its magic. Thank you.

Wishing you and yours a safe and happy holiday,

Cassie Schultz

P.S. Nature's magic in Ontario exists because of you. Please send your special gift for nature today!
