**St. Joseph's Indian School**  
We serve and teach, we receive and learn.

**Give Now**

---

Dear Pamela,

You and other valuable members of our **thiyóšpaye** — *extended family* — have helped provide for the education, meals, clothing and safe, loving homes for the Lakota (Sioux) children at St. Joseph's

Indian School.

Those are topics that are simple to talk about. However, today we find ourselves reaching out to you on a topic that is far from glamorous. In fact, it's a topic so many of us shy away from: **sanitation and sewer systems.**

Yes, that is the topic which we bring to you today. You see, Pamela, as our campus inches closer and closer to 100 years old, capital improvements rear their heads more and more. We have a sewer repair

scheduled to take place the beginning of October that will cost nearly \$32,000. **Can you chip in to help make this important preventative repair?**

**Give Now**

You see, the main sewer line has begun to deteriorate and is nearing collapse in some areas. It is currently operational, but is becoming difficult to keep clear. This original sewer line was installed over 50 years ago and has lasted longer than expected.

**Pamela, we don't want to wait until there's a BIG problem before making the repairs.** Left unchecked, we could experience the backup of sewage into the school and office buildings; flooding in the lower level of buildings; and other issues related to raw sewage in the near future. **Waiting until this happens would at least TRIPLE the cost** than repairing the problem now.

**Pamela, please give now to help take care of this sewer issue before it becomes something much, much worse.**

**Give Now**

The sewer line replacements are stronger and expected to outlive our original sewer lines by upwards of 50 years or longer.

You can feel confident knowing your gift won't be merely "flushed down the drain." That little bit of word-play is an attempt to

lighten the tone of this topic; however it remains very serious. **We hope you'll open your heart and help us accomplish this repair for the safety of our students.**

**Give Now**

**Philámayaye** — *thank you* — for your generosity.

God bless,  
St. Joseph's Indian School
