

**Neighbors need you now more than ever!**

**DONATE NOW**

Pamela

I don't normally send you emails like this, but COVID-19 has shown that these are not normal times.

The virus is already forcing moms, dads, and kids to the edge of disaster by devastating their income.

Will you please make an urgent gift of \$35 to provide emergency food for your neighbors? <https://www.ucomgr.org/donate-now>

I just got off the phone from speaking with a worried mom named Danielle. Danielle tends bar at one of the downtown restaurants and has been out of work for weeks now. Unemployment kicked in, but because much of her income is tips, the help she is getting isn't enough. She needs UCOM, and UCOM needs YOU!

Your donation now will provide emergency food to a mom like Danielle who's unable to pay all of her bills. You save her and her kids from being hungry in this uncertain time.

Just this week we've already gotten more phone calls from worried moms like Danielle. Their jobs are at risk or they aren't working at all. Kids are out of school. And daycare is unaffordable. Plus grocery store shelves don't have all of the items families need to get by. This is no time to be without food and cleaning products.

We didn't budget for this, we had no way to know this was coming! There are no funds in our budget to meet this unexpected need. But your gift today will provide instant relief to Danielle and countless others.

Your action is needed now. Please make your gift at <https://www.ucomgr.org/donate-now> to provide emergency food assistance with urgency. You'll help keep a mom and her kids from wondering if they'll have enough food for one week ... and every day counts right now.

Thank you for always being there for your neighbors!

Bruce Roller
